

This architectural elevation drawing shows a three-story brick building facade. The facade is divided into four main sections by vertical lines, labeled (14), (15), (16), and (17) at the top. Section (14) is the leftmost part, featuring a ground-floor entrance with a small porch and a grid-patterned door, and two floors of windows above it. Section (15) is a narrow section with a small balcony on the second floor. Section (16) is a wider section with a central entrance on the ground floor and a balcony on the second floor. Section (17) is the rightmost part of the main facade, featuring a ground-floor entrance with a grid-patterned door and two floors of windows above it. To the right of section (17) is a gabled section labeled (18), which has a steeply pitched roof and a small balcony on the second floor. The building is constructed of light-colored brick with dark brown window frames and door frames. The drawing is a technical representation of the building's exterior, showing the arrangement of windows, doors, and structural elements.
